

Forni pizza - Pizza ovens

OPTYMO

Lascia che il forno lavori per te
Let the oven work for you

oem

exceeding Your expectations

Optymo

**Da oggi
consumi meno!**

**Non "giri" più
la pizza come prima!
E risparmi tempo.**

**Non sposti più il forno
per la manutenzione**

**Ti è più facile
programmare il lavoro.**

**La gamma completa
ti offre il forno adatto
alle tue esigenze.**

Optymo

*From now on you
consume less!*

*No need to turn the
pizza like before!
And you save time.*

*You will not need to move
the oven for maintenance.*

*It will be easier to
program your work.*

*The full range offers
you the oven for
your needs.*

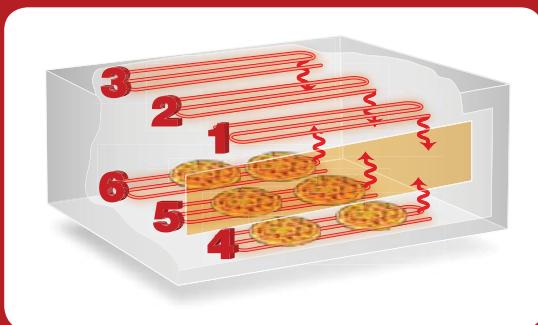

Qualità di cottura 6

Oem Baking System

Grazie a 6 zone di cottura controllabili tramite microprocessore, il forno sceglie di differenziare 3 distinte potenze per il cielo e 3 per la platea (parte anteriore, media e posteriore). Non c'è più bisogno di ruotare la pizza come prima.

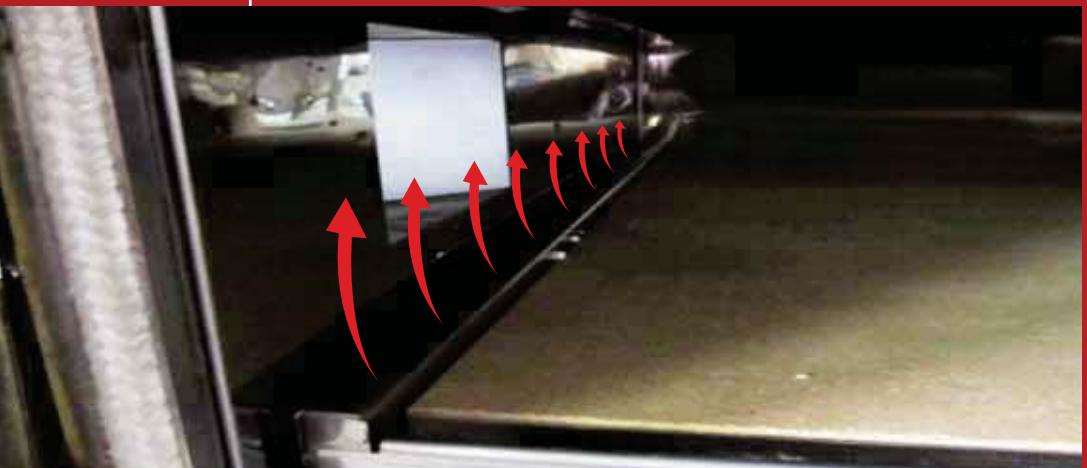

6 backing zones controlled by microprocessor will allow you to differentiate among 3 different upper temperatures and 3 lower ones (front, middle and back): no more need to turn the pizza inside the oven.

Heat Recovery System

Sistema bilanciato a compensazione di calore con innovativo sistema di recupero laterale.

Balanced compensation system with an innovative heat recovery side system.

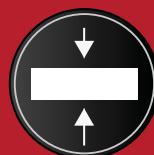

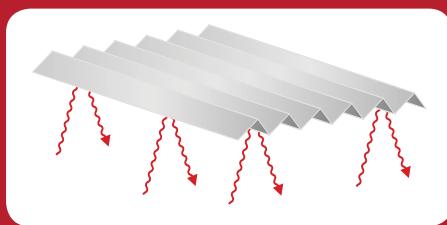

Baking quality 6

Reflection System

Camera con elementi superiori sagomati inox per una cottura ottimale ed una elevata riflessione ad infrarossi del calore.

Backing chamber with stainless steel shaped upper elements for the best backing and high infrared heat reflection.

Piano in pietra refrattaria di elevato spessore.

High thickness refractory backing surface.

Rapido passaggio da pizza a teglia e viceversa,

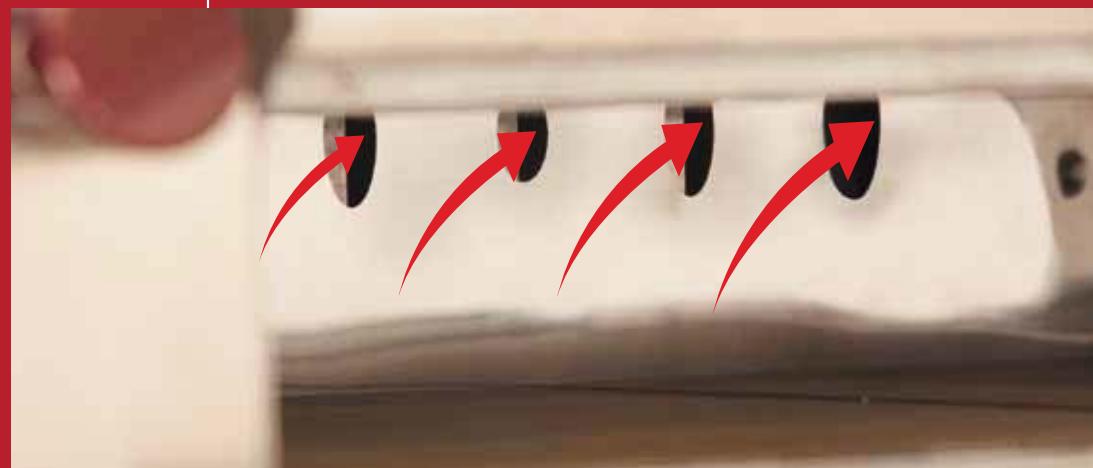

grazie a un veloce recupero di temperatura.

Quick change from direct backing to backing in trays and vice versa, thanks to a faster temperature recovery.

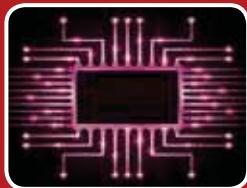

L'estrazione dei vapori bilanciata consente una cottura più uniforme.

The balanced fumes extraction allows a more uniform baking.

Tutto sotto controllo!

**Un computer di bordo,
facile ed intuitivo**

*Easy and intuitive
onboard computer*

Segnali d'attenzione musicali

*Musical signals to draw
your attention*

Basta un colpo d'occhio

In ogni momento è visualizzata la temperatura d'esercizio in un grande display - led ad alta luminosità

Everything at a glance

In every moment the operating temperature appears on a wide display of high visibility

Come piace a te

Grazie ad una interfaccia semplice ed intuitiva, puoi creare i parametri di cottura premendo solo pochi tasti

As you like it

*With a simple and intuitive interface,
you can create your cooking parameters
by simply pressing a few buttons!*

Quando e come vuoi tu

Funzioni di autoaccensione (2 al giorno, per tutti i giorni della settimana), scegli la configurazione più adatta, pianifichi il lavoro, risparmi energia

When and how you prefer

Auto-ignition features (2 per day, every day of the week), choose the most suitable ones for you to plan your work and save energy!

Everything under control!

Guadagni tempo.

**Forno sempre pulito in automatico
con funzione di autopulizia a 400°C
... alla fine si spegne da solo**

Time saving

*The oven always carries out the automatic self-cleaning function at 400 ° C
... Eventually it turns itself off*

Fai già tutto!

**Tre programmi preimpostati,
ma modificabili in ogni momento**

Do everything!

Three preset programs, but you can change them at any time

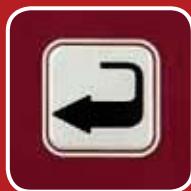

Memory

**SD Card per memorizzare eventi, monitorare
la vita del forno, aggiornare il software**

Memory

SD Card to store events, monitor the oven's life and update the software

Accesso completo

Con il tasto Menù accedi a tutte le funzioni

Full Access

Menu button to have access to every feature

**Ora crea la tua pizza!
Now make your own pizza!**

Consumi ridotti

Low power consumption

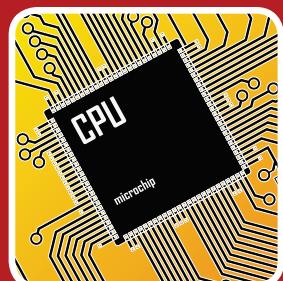

Fuori è freddo (max 50°C)

Forno freddo esternamente a riprova di un grande isolamento ottenuto con lana di roccia trattata ricoperta da fogli di alluminio

Cold outside (max 50°C)

The oven is cold outside, due to thick insulation made with treated rock wool covered with aluminium foil

Grazie al microprocessore che ottimizza il funzionamento delle resistenze è possibile l'utilizzo razionale della potenza

Thanks to the microprocessor that optimizes the heating elements functioning, it is possible to have the power rational use

Niente più cappa

No more hood

Modulo d'aspirazione integrato e dedicato per ogni camera

Il sistema d'aspirazione calibrato incanala ed espelle in modo ottimale i fumi di cottura. La cappa integrata inoltre, riduce l'altezza del forno migliorandone l'estetica

Integrated intake module, dedicated to each chamber

The suction calibrated system channels and expels in the best possible way the backing fumes. The integrated hood also reduces the oven height improving its aesthetics

Puoi attivare/disattivare l'aspirazione forzata all'atto dell'apertura porta tramite l'apposita funzione dedicata "door"

You can enable / disable the forced suction when opening the door with the appropriate "door" function

Manutenzione facilitata

**Tutta la manutenzione dal frontale,
per riprendere subito la produzione**

*The entire maintenance system can be carried out
from the front, no need to stop the production*

Frontale forno e piano cottura interamente estraibili
Entirely removable front part and backing surface

Easy maintenance

**Per tutte le operazioni di manutenzione non devi più mettere a soqquadro il locale
Minor tempo e facilità d'intervento:
stop ai fermi prolungati, un vero euro-risparmio**

For every maintenance operation there is no need to mess the premises up

*Less time and easiness of operation:
no more forced stops, a true Euro-saving*

**Tutto in luce:
basta zone d'ombra**

2 lampade di illuminazione alogene da 12 volt ad accensione e spegnimento soft facilmente sostituibili, sempre dal frontale

*Everything under the light,
no more shadows*

2 halogen lamps at 12 volt, which can be soft turned on and off, easily replaceable, always from the front

Pannello comandi removibile tramite guide

Control panel to be removed through guides

Come lo scegli?

How do I choose?

Si individua la tipologia di pizza che si desidera produrre, tonda diametro 30cm, 35cm, 45cm oppure teglia (60cmx40cm).

E' necessario definire la produzione oraria di picco del locale (pizze/h) ovvero il quantitativo massimo di pizze da produrre nel momento di massimo carico di lavoro della settimana.

Conoscendo la tipologia di pizza da produrre e la produzione di picco del locale (pizze/h) è possibile scegliere il forno sulla tabella della pagina a fianco. I fornì sono componibili fino a tre camere di cottura.

E' necessario infine verificare se lo spazio disponibile all'interno del locale è sufficiente al posizionamento del forno.

You choose the type of pizza you want to prepare, with a round base of 30 cm, 35 cm, 45 cm, or to be backed in a tray (60cm x 40 cm).

It is necessary to define the maximal hourly production of the restaurant (pizzas/h), that is the maximum quantity of pizzas to be backed in the maximum working hour of the week.

Knowing the type of pizza and the maximum production (pizzas/h), it is possible to choose the oven from the scheme on the right page.

The ovens can be stack up to three chambers.

It is necessary, in the end, to check if the room available inside the venue is enough to place the oven.
